About

I am an Electrical Engineering student at the University of Lampung who is very enthusiastic about IT and its various branches.

Education

2020- Now   ●   University Of Lampung

Bachelor Degree Of Electical Engineering

My goal to enter the University of Lampung, especially in Electrical Engineering, is that I want to improve my soft skills, especially in the field of electricity, because for me electricity will be a renewable energy in the future. Therefore, I want to be part of the nation's development that will improve the welfare and prosperity of the Indonesian nation.
